Experience The Maintainer Advantage

MAINTAINER CRANES

Maintainer Cranes are built with strength, durability and safety in mind:

- Hexagonal boom design
- Short and tall tower design
- Fifteen crane models are in the product line, including our newest: **H14025 model with 14,000 lbs. max. lift and 90,000 ft*lb crane rating!**

MAINTAINER ACCESSORIES

LUBE BODY PACKAGES: Consist of robust, heavy-duty parts to handle any extreme environment. Various flow rates are available to meet your needs. Internal compartments protect against contamination and are insulated and heated for top consistent performance in colder climates.

SIGNATURE SERIES

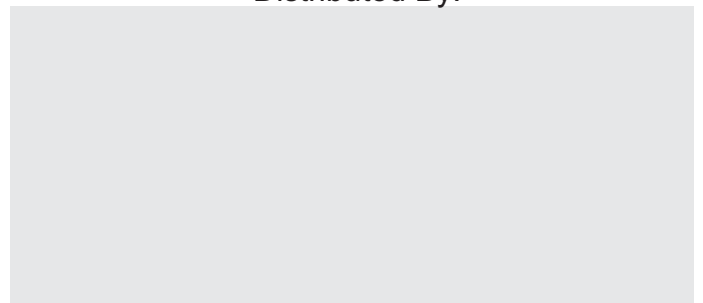

In addition to custom configurations, our Standard **Signature Series Line** highlights Service, Lube, and Combination configurations.

MANY OF THESE ARE IN STOCK & AVAILABLE NOW!

Check out www.maintainer.com for availability of our stock trucks or to start configuring the custom body of your dreams!

ALL-IN-ONE POWER SYSTEMS: VanAir, EnPak, and Raptair-MF units provide power for air compressor, generator, welder, and hydraulic pump... **ALL FUNCTIONAL WITH THE ENGINE OFF!**
